

Wimmer Cockpit for line drilling units

Real-time drilling data recording

-  **Measurement of drilling data**
-  **Direct transmission to mobile devices**
-  **Transparent analysis of the drilling process**
-  **More precise work: drilling records with evaluation of each drilling**

Drilling data analysis with on click

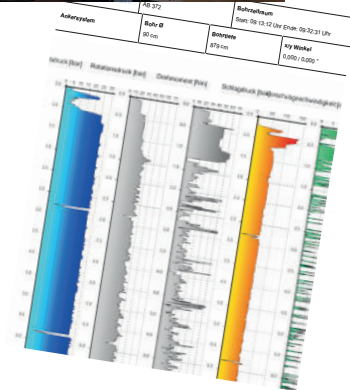

Measured parameters

- Drilling meters per hammer drill
- drilling hours per hammer drill
- operating hours per hammer drill
- set depth per hammer drill
- total drilling meters
- total drilling hours
- total operating hours

Data evaluation

stored on a server via GSM (Global System for Mobile)

- Data analysis per day, month and year as well as the general course
- Drilling records for each hole
- Storage for at least 12 months
- available at any time on mobile devices
